#### Arab-Israeli Conflicts (1948 - )

This conflict involves Israelis and Palestinians over territory and belonging and has long historical antecedents. The agreements post-1990 are between the Palestinian Liberation Organisation (PLO) and Israel, with some supporting inter-state agreements (i.e. between Israel and Jordan). More recently the importance of the once dominating Palestinian Liberation Organisation (PLO) has diminished not in the least due to the effective disappearance of its left-wing members and the loss of the popularity of their political wing, Fatah. Hamas and other Islamic groups have attained significant relevance in Fatah's stead, with Hamas controlling the Gaza strip (from which Israel ultimately unilaterally withdrew (not coded as a peace agreement).

Geo-political implications of the conflict have been considerable across the MENA region.

- a. The Israeli Side agrees that the Palestinian Side shall commence construction works in and related to the Gaza Sea Port on October 1, 1999;
- b. The two Sides agree that the Gaza Sea Port will not be operated in any way before reaching a joint Sea Port protocol on all aspects of operating the Port, including security;
- c. The Gaza Sea Port is a special case, like the Gaza Airport, being situated in an area under the responsibility of the Palestinian Side and serving as an international passage. Therefore, until the conclusion of a joint Sea Port Protocol, all activities and arrangements relating to the construction of the Port shall be in accordance with the provisions of the Interim Agreement, especially those relating to international passages, as adapted in the Gaza Airport Protocol;
- d. The construction shall ensure adequate provision for effective security and customs inspection of people and goods, as well as the establishment of a designated checking area in the Port;
- e. In this context, the Israeli side will facilitate on an on-going basis the works related to the construction of the Gaza Sea Port, including the movement in and out of the Port of vessels, equipment, resources, and material required for the construction of the Port;
- f. The two Sides will coordinate such works, including the designs and movement, through a joint mechanism.
