

CATACUMBO AGREEMENT

In the city of San José de Cúcuta, Norte de Santander, an extraordinary meeting was held between Delegates of the National Government and representatives of the “Front 33 of the EMBF FARC-EP” and, within the framework of the Peace Dialogue Table that is being advanced, they agreed:

In compliance with Decree 0448 of 17 April 2025 and having reached an advanced stage of the process, it was decided to establish a Temporary Location Zone (ZUT) in the rural area of the municipality of Tibú, Norte de Santander, where the members of Front 33 of the EMBF FARC-EP will be located.

The ZUT, as stipulated in Law 2272 of 2022, is geographically delimited and within it the Social Rule of Law and the functioning of the institutions that will participate in the territorial transformations agreed upon within the framework of the Peace Dialogue Table will be guaranteed, with the active participation of the communities of Catacumbo, with respect for their rights and freedoms.

In defining the ZUT, the proposals submitted by the parties were analysed and evaluated, and its location was finally agreed upon, taking into account the security, logistical, geographical and administrative conditions required to meet the basic needs of temporary residence for the members of Front 33 of the EMBF FARC-EP who will participate in the peace process with social and environmental justice.

The Delegations will draw up the necessary Agreements and Protocols for the establishment and operation of the ZUT, as well as the duration of each phase.

In witness whereof, signed in San José de Cúcuta, Norte de Santander, on 3 May 2025, by the delegations to the Roundtable.
