

## **PEACE COMMITMENTS IN DOHA**

### **Process for the demobilisation of the self-styled Gaitanista Army of Colombia (EGC) and peacebuilding with the people in the territories**

The working groups for the Socio-Legal Conversation Space, meeting in the city of Doha, accompanied by the Group of Mediating Countries composed of the State of Qatar, the Kingdom of Spain, the Kingdom of Norway and the Swiss Confederation, held the second session of talks and we have defined:

1. Expand the area for implementing pilot actions that will enable the development of the trust-building stage to the municipalities of: Ayapel, Montelíbano, Puerto Libertador, San José de Uré and Tierralata (Córdoba); Cárceres, El Bagre and Nechí (Antioquia); and El Carmen de Bolívar and San Jacinto (Bolívar).

These municipalities join the municipalities of Mutatá (Antioquia), Acandí, Belén de Bajirá, Ríosucio and Unguía (Chocó), previously defined in the Declaration of 18 September 2025, with the aim of extending the commitments established at municipal and national level, ensuring their implementation with territorial relevance.

2. Assign to the Mission to Support the Peace Process in Colombia of the Organisation of American States (MAPP/OEA), within the framework of a tripartite mechanism, the mandate to follow up, monitor and verify the commitments we have reached, promoting the necessary financial, technical, academic and logistical support measures in the aspects defined in the 'Protocol for the follow-up, monitoring and verification of the peace commitments in Doha'.

The Municipal Working Groups (GTM) defined in the Doha Declaration of 18 September 2025 shall take into account the elements of follow-up, monitoring and verification set out in the aforementioned protocol.

3. Create three Temporary Location Zones (ZUT) in the municipalities of Belén de Bajirá, Unguía (Chocó) and Tierralta (Córdoba) for the gradual and progressive location, starting on 1 March 2026, of (a)EGC combatants in each of these zones. To this end, the following measures shall be adopted:
  - a. Issue the administrative act establishing the ZUTs, with a precise definition of the specific and determined rural locations of the ZUTs, and deliver to the Peace Commissioner Advisor the initial list of combatants who will enter the ZUTs from the (a)EGC. This list will be supplemented progressively and incrementally.
  - b. Adopt measures to provide legal and human security guarantees to combatants during the course of their transfer to the ZUTs, including the suspension of the execution of arrest warrants, as well as those for extradition purposes.

- c. Carry out educational work within the (a)EGC in line with the commitments made in the peace process for the transition of the armed group to the social rule of law.
  - d. Define the protocols corresponding to operation; security; logistics; breakdown; transit; follow-up, monitoring and verification; dispute resolution; communications; war material; pedagogy; and others deemed necessary, before 3 February 2026.
  - e. Establish on 18 December 2025 the Tripartite Mechanism for Follow-up, Monitoring and Verification of the commitments made in relation to the ZUTs, in accordance with the provisions of the protocol annexed to this document.
  - f. Prepare the logistical and administrative conditions for the ZUTs
  - g. Define progressive conditions to early contribute to the fulfilment of victims' rights upon entry into the ZUTs.
  - h. The working groups will continue to discuss the possible incorporation of new ZUTs, in accordance with the principles of gradualism and progressiveness.
  - i. Reiterate the invitation to the National Attorney General's Office to, in full exercise of its constitutional autonomy, report on the developments of the special mechanism for prioritising cases of complaints of violations of International Humanitarian Law requested by the working groups of this socio-legal process in the Doha Declaration of 18 September 2025.
4. The government of the Republic of Colombia, the MAPP/OEA, and representatives of the (a)EGC shall take the necessary humanitarian actions to ascertain the health and dignity conditions of persons belonging to the (a)EGC who are detained in prisons and jails in the country and abroad, as an integral part of the socio-legal conversation process. The (a)EGC shall provide the Peace Commissioner Advisor with a list of its members for this purpose.

We call on Colombian society to reaffirm peacebuilding as a common goal in the interests of all Colombians, regardless of their ideologies, beliefs or political positions. Consequently, we will preserve the integrity of this socio-legal process, preventing its exploitation for electoral purposes, and we call on everyone not to undermine these spaces with actions that affect their impartiality.

The working groups of the Socio-Legal Conversation Space reject accusations that this peace effort focuses on revealing information about drug trafficking leaders or structures.

The Socio-Legal Conversation Space respects the self-determination of the Gaitanista Army of Colombia, in accordance with Presidential Resolution 294 of 5 September 2025, and urges the State authorities to use this name in their work in order to clarify the established follow-up, monitoring and verification processes.

Over the coming weeks, the working groups for the Socio-Legal Conversation Space will carry out the consultations and activities necessary to fulfil these commitments. The agendas, dates and composition of the delegations will remain confidential, ensuring the integrity of the peace process.

We would like to express our gratitude to the State of Qatar, in particular for its hospitality and for creating the conditions for this session to take place, to the Kingdom of Spain, the Kingdom of Norway and the Swiss Confederation for their mediation, as well as to the MAPP/OEA for its support and the National Attorney General's Office for its observation.

Doha, Qatar, 5 December 2025
