

## **THE KAFANCHAN PEACE DECLARATION BETWEEN FARMERS AND GRAZERS**

### **PREAMBLE**

Southern Kaduna is characterised by frequent clashes between farmers and grazers over grazing areas. Both farmers and grazers exacerbate the problem; grazers in protecting and defending their livestock and farmers in defending their crops. It is a problem compounded by the availability of small arms. Nomadic movements require cooperative arrangements with sedentary mainly farmer communities which in many cases does not happen. Risks of violent conflict increase during the dry season where lack of provision for pastoralist needs for pasture and water lead to invasions on farmland.

### **We, the parties to this Declaration outline the following as the causes of violence;**

- i. Laxity of the cow herders.
- ii. Cattle rustling.
- iii. Growing number of herds.
- iv. Shortage of pasture available for the grazing of cows.
- v. Shortage of farmland.
- vi. Reprisal attacks by both farmers and grazers.
- vii. Lack of accountability for herders responsible for damage.
- viii. Over population.
- ix. Porous borders that allow for free entry of cattle across national borders.
- x. Criminal networks operating across borders.
- xi. Proliferation of small arms, including automatic and semi-automatic weapons.
- xii. Inadequate policing and state security policies that have increased the insecurity and the tendency towards self- defence and retaliation.
- xiii. Creation of vigilante groups in response to security problems.
- xiv. Inadequate land tenure policies that have tended towards nomadic communities relying on communal grazing rights.
- xv. Clash of traditional models of governance that include access to water and pasture with statute law.
- xvi. Growing desertification caused by climate change.
- xvii. Encroachment on grazing reserves.
- xviii. Displacement of communities.
- xix. Fears and mistrust between farmers and grazers.
- xx. The use of underage grazers.
- xxi. The lack of or use of non-use of modernized grazing systems.

### **RESOLUTIONS**

We the communities of Sanga, Kachia, Kaura, Zangon Kataf and Jema'a, having suffered negative effects of violent conflict between us, hereby commit to dialogue and peaceful settlement of disputes without resorting to violence. We have agreed on the following

practical solutions that shall contribute to our peaceful co-existence as farmers and grazers.

## **VIII. COMMITMENTS AND CLAIMS OF GRAZERS**

### **1.1 Commitments**

We grazers, commit ourselves to the following in relation to the farmers:

- i. Not to cause injury of farmers.
- ii. Not to cause the death of farmers.
- iii. Prohibit our herders from letting the cattle invade farms and in the event that this happens, discuss with the farmers on forgiveness or reparation of damages.
- iv. In the event of destruction of farmland, encourage herders to contact the owner of the farm, as previously done traditionally.
- v. Not to use insulting, hurtful or abusive words towards the farmer.
- vi. Seek amicable solutions, through dialogue, between farmers and grazers and refer unresolved cases to the traditional and religious leaders.

### **1.2 Claims**

We grazers, call on the farmers to do as follows;

- i. Not to attack herdsmen.
- ii. Not to kill the cattle if found feeding on the crops.
- iii. Not to shoot, poison, beat, or injure the cattle.
- iv. Not to impound the cattle.
- v. Exhaust local remedies such as commensurate fines before taking grazers to the Police because of cattle trespassing on farms.
- vi. Not to burn the fields.

## **IX. COMMITMENTS AND CLAIMS OF FARMERS**

### **1.3 Commitments**

We farmers, commit ourselves to the following in relations to the grazers.

- i. Not to cause injuries to herdsmen.
- ii. Not to cause the death of herdsmen.
- iii. Prohibit our herders from letting the cattle invade farms and in the event that this happens, discuss with the farmers on forgiveness or reparation of damages.
- iv. Not to cause the death of cattle, through shooting, poisoning, beating or in any way whatsoever.
- v. Not to use insulting, hurtful or abusive words towards the grazer.
- vi. Seek amicable solutions, through dialogue, between farmers and grazers and refer unresolved cases to the traditional and religious leaders.

### **1.4 Claims**

We farmers, ask of the grazers;

- i. Not to graze their cattle on our crops.

- ii. Not to attack farmers.
- iii. To give clear instructions to herders not to graze on crops.
- iv. Not to steal crops from the fields for purposes of feeding the cattle.
- v. To entrust the grazing of their cattle to adults. .
- vi. Not to carry weapons such as guns and intimidate farmers.
- vii. Not to beat up, injure or kill farmers.
- viii. Not to threaten other ethnic groups from rearing cattle.

**X. POLICY RECOMMENDATIONS FOR STATE GOVERNMENT OF KADUNA AND FEDERAL GOVERNMENT OF NIGERIA**

- i. Establish a clear land-use plan strategically identifying and placing water points for livestock. This will assist in securing access to water for both farmers and grazers through promotion of shared management of the resource; mark livestock corridors and stock routes; identify areas under grazers and farmers ownership; create cattle resting areas and grazing reserves. A clear land-use plan decreases potential for conflicts by placing water points away from sensitive zones and enabling risk-free movement for grazers.
- ii. Work with communities to identify grazing reserves and areas.
- iii. Involve Government security agencies as a last resort after the failure of traditional intervention.
- iv. In the programming of projects of public interest, take into consideration the concerns of farmers and grazers.
- v. Demarcate unclaimed land as it legally belongs to the Nigerian State and codify its usage.
- vi. Adopt pastoral laws and codes. Pastoralists, due to their movements, rely mostly on customary and not legally defined grazing reserves that are however increasingly used by either expanding agricultural or industrial activities.
- vii. Ensure the security of both farmers and grazers.
- viii. Provide technical assistance to grazers to reduce their and their animals' vulnerability (examples include controlling tsetse flies, ticks, wells as well as cheap or free provision of veterinary services)
- ix. Increase bilateral cooperation between countries where transhumance crosses borders. As nomadic movements are trans-national, dialogue with partnering countries can be decisive in order to tackle the issue on both sides of the border.
- x. Improve Markets to combine both farmers and grazers products enhancing cohesion but also boosting Nigeria's economy.
- xi. Enhance education among nomadic communities, to include peace education and modern ranching methods.
- xii. Provide mobile services for nomadic communities such as financial services, mobile libraries, mobile health provision and insurance schemes.
- xiii. Call for the resuscitation and strengthening of the conflict management committee and dialogue, as enshrined in the Kaduna State Grazing reserves Law of 1987.

## **XI. RECOMMENDATIONS FOR THE INTERNATIONAL COMMUNITY, CIVIL SOCIETY AND OTHER STAKEHOLDERS WORKING IN KADUNA STATE**

### **i. Strengthen civil society by;**

- Establishing and strengthening informal (grazer and farmer) associations and civil society initiatives to increase local dialogue.
- Strengthen interdependency between farmers-herders particularly through shared markets, schools and social activities.
- Build capacity of farmers and grazers in Alternative Dispute Resolutions mechanisms (ADRs).

### **ii. Encourage and support policies to enhance the viability of the nomadic life by:**

- Mainstreaming efforts to prevent conflicts involving farmers and grazers in all development assistance programmes, ensuring that such issues are addressed in organizational strategic plans.
- Review the impacts on risks of conflict of current development policies and of laws and regulations relating to land tenure and access to water.
- Support programs to ensure access to water and pasture during drought to reduce the risk of violence between farmers and grazers.
- Assist farmers and grazers with capital during the dry season to restock their herds and to buy equipment, seeds and other inputs to replenish their farms.
- Support the capacity of the Ministry of Agriculture and individual herders to support the modernization of agricultural and livestock production.
- Support the development of regulations on land tenure relating to access to access to pasture land and water for both farmers and grazers.
- Provide co-operation for efforts by Nigeria and the State Government of Kaduna to tackle small arms proliferation and end illicit arms trafficking across the borders.
- Support efforts to strengthen the capacity of communities to prevent and solve communal conflicts by building their capacities on conducting of conflict analysis and alternative dispute resolution methods including customary or traditional procedures.
- Support the establishment of farmer/grazer peace and development, conflict prevention and longer-term peace building committees.
- Support inclusion of farmer/ grazer women in local level peace-building;

## **XII. ESTABLISHMENT OF A MONITORING COMMITTEE**

### **XVI. PUBLIC APOLOGY**

**We, representing some of** the communities from the five Local Government Areas (LGA's) of Southern Kaduna; Sanga, Kachia, Kaura, Zangon Kataf and Jema'a cannot in ourselves, deliver reconciliation. Many of us belong to a generation that remembers when Kaduna was a peaceful place in which ethnic and religious communities co-existed peacefully. We want to go back to that Kaduna; a Kaduna in which there is an end to violent conflict and issues are solved amicably. To achieve this, we want to be the first to say to each other that we have wronged each other and are sorry for the suffering that each of our communities has contributed to and has suffered even as we understand that reconciliation is difficult and has to be owned by the communities – those who have to live with its consequences. This Declaration is the culmination of the first step of a process that has provided us with the promise that we may yet see the peaceful Kaduna we long for; a Declaration that makes an important contribution towards creating the conditions to ensure that violence does not occur between us in future.

**XVII. SIGNATURES**

- i. **Founding Signatories: Comprising representatives of** the communities of five Local Government Areas (LGA's) of Southern Kaduna; Sanga, Kachia, Kaura, Zangon Kataf and Jema'a who participated in the making of this Declaration and who accept responsibility for upholding its terms.
- ii. **Witnesses:** Comprising people in any organizational, official or personal capacities who wish to record that they were present at and personally witnessed the signing on March 23<sup>rd</sup> 2016.
- iii. **Joining signatories:** Comprising representatives from other communities, groups, or individuals in Kaduna State who wish to embrace this Declaration and share in the responsibilities of furthering its objectives and terms. Signatories in this category may join at any time in procedures to be established by the Founding Signatories.
- iv. **Welcoming signatories:** Comprising any other people, anywhere in Nigeria or internationally, who wish to acknowledge this Declaration and welcome its objectives and terms. Signatories in this category may join at any time in procedures to be established by the Founding Signatories.
